

Technical Assistance to Increase the Adaptability of Employers and Employees in the Tourism Sector (Turkey)

From the beginning of 2014 until the summer of 2016, we were part of an international consortium as experts, which had the task of developing practical solutions for the qualification of tourism professionals in Turkey. In this context, we designed a training program on the subject of "Environmental management in the hotel industry" based on the Green Star Toolkit. During two short-term missions in autumn 2015 and spring 2016, we conducted trainings and workshops in leading hotels of the Turkish hotel industry.

The client was the "Deutsche Gesellschaft für Internationale Zusammenarbeit" (GIZ) GmbH.
